DIARY NOTES

25X1A

ADD/A (Colonel White

24 March 1952

1. Gave [REDACTED] the study on the number of administrative positions in operating offices and asked him to pursue this matter without delay.

2. Met with Jim Garrison, [REDACTED] and other members of their offices with reference to meeting a 1 April deadline set by G-4 for requirements during the Fiscal Year 1952. Found a complete lack of understanding in that [REDACTED] thought he was only to submit requirements for supplies which were to be delivered prior to 1 July 1952; also, he was not considering [REDACTED] at all, and in planning for this particular Project it had been decided to use \$15,000,000 worth of these supplies for other areas.

We clarified for everyone these points:

[REDACTED]

3. I talked with [REDACTED] of the General Counsel's Office in connection with drafting a Notice outlining what employees may and may not do in connection with political campaigns because of the Hatch Act.
